

The Organization of Residential Homes, a non-profit, 501(c)3 entity, was founded in 1973.

Our purpose is to promote and extend Christian Science through the establishment and maintenance of residential homes for active Christian Scientists of retirement years. This is achieved through a support network for members and by serving as a clearing house for those seeking information about a home for themselves or a loved one.

We maintain an office, staffed by an Executive Coordinator who is available to answer questions about ORH and provide information about our member facilities. Our toll-free number makes it easy for inquirers to utilize this service, which is advertised regularly in *The Christian Science Monitor*.

At our yearly seminar, ORH members and guests hear inspirational talks by experienced Christian Scientists and share their own experiences in operating their facilities. This forum of ideas benefits both new and established facilities.

If you have any questions about our members, joining ORH, or our annual seminar, contact our Executive Coordinator at 1-800-781-4660.
